PROFILE

I build production web apps and AI-assisted systems end to end — architecture, code, structured audit, deploy — by orchestrating coding agents in the terminal and chat. Multi-model cycles: one model builds (Kimi, DeepSeek, GLM, MiniMax), Claude runs a structured audit after major steps, then targeted fixes. Working seriously with AI since 2022. I ship systems and pipelines, not one-offs.

EXPERIENCE

Founder & AI Engineer — Rakazo — Jan 2024 – Present · Remote

- Open-source, self-hostable AI agent platform, an alternative to Grok Bot; co-developed with 2 colleagues (rakazo.com).
- Architected the agentic engine: autonomous planning, multi-step tool execution, browser/system interaction; persistent memory and context retrieval.

AI Builder & Full-Stack Developer — WebSardegna (self-employed) — Jan 2023 – Present · Sardinia, Remote

- Ship production web apps end to end with Claude Code / OpenAI Codex CLI; deploy on Vercel and self-hosted Contabo + Coolify.
- LLM integration: content generation, classification, extraction, structured JSON outputs, Python scripts on xAI / Grok APIs.
- Anvelope Ungheni: OpenCart → Next.js + Supabase rebuild, ~15k-product bilingual catalog (RO/RU), migration tooling.
- Client sites and booking flows (hospitality, local services) with TypeScript, Next.js, Stripe; Google, Meta, TikTok Ads with GA4, GTM, Pixel + CAPI.

Night Receptionist — Hotel Orri & Camping Village Orri (seasonal) — May 2026 – Present · Tortolì
